

Wisconsin Nightjar Survey

Please remember that surveys should not be conducted under cloudy or windy conditions, or when there is persistent rain. If such conditions manifest after a route is started, and persist for more than three points, it is advisable to abort the route and attempt it again under better conditions.

Route # and Name:										
Observer:										
Date:										
Start time:					End time:					
Start temp (F):					End temp (F):					
Weather Data at Points:										
Point:	1	2	3	4	5	6	7	8	9	10
